Model Clauses and Agreements to Transfer a Dispute

Parties to an international treaty or other agreement wishing to refer any disputes that may arise in the future to international arbitration under the auspices of the IACOURT may include an appropriate clause in their agreement.

Parties that have not yet entered into or wish to modify an existing arbitration agreement to conduct IACOURT arbitration may conclude an appropriate submission agreement.

The IACOURT International Bureau provides, upon request, information regarding the drafting of clauses and dispute resolution agreements.
